

## Marke II

Your code is too buggy!

You'll have to decompile it : take one letter from each word in each line to find items in the same category.

CESS	PICO	INCA	YARD	DATE	CRAB
10	1	2	4	11	5

HERB	A.L.O.E	KERR	TWIN	LICE	GETS
6	3	9	7	8	12

What's left when you're done debugging?
